SUMMARY

Computer Science undergraduate at Indian Institute of Information Technology, Surat with strong foundations in programming, UI/UX design, and early-stage machine learning. Experienced in building user-centric interfaces and ML-based models. Seeking learning-focused early-career programs to strengthen problem-solving skills and gain real-world industry exposure.

SKILLS

Programming	C, Python, SQL, Data Structures & Algorithms, OOP
Machine Learning	NumPy, Pandas, Matplotlib, scikit-learn, basic ML algorithms
UI/UX & Frontend	User Research, Wireframing, Prototyping, HTML, CSS, JavaScript
Computer Networks	Layers of Application, Wireshark, Networking and Network Protocols

PROJECTS

Networking Simulation Project

[GitHub](#)

- Built a computer networking simulation project implementing routing protocols like OSPF and BGP
- Simulated packet routing, path selection, and network communication concepts using Django
- Focused on backend logic, protocol behavior, and interactive visualization of network operations

Reimagining AO3: UI/UX Engineering

[Case Study](#)

- Conducted a UI/UX redesign of Archive of Our Own (AO3) to improve usability and navigation
- Focused on user research, visual hierarchy, and accessibility
- Created wireframes and high-fidelity prototypes using Figma

FundFit: Mutual Fund Advisory Platform

[GitHub](#)

- Developed a mutual fund advisory platform aimed at simplifying investment decisions for users
- Working on investment recommendation flows, financial data presentation, and user-focused design
- Focused on intuitive UI, accessibility, and bridging finance with technology for better usability

EXPERIENCE

Design Lead: IIITians Network

February 2026 - present

- Lead the Design Team at IIITians network

Open Source Contributor: GirlScript Summer of Code (GSSoC)

2025

- Selected participant in a national-level open-source program and contributed to real-world repositories.

Intern: Build on Coffee

Aug 2025 – Oct 2025

- Assisted in creating user-facing designs and digital assets for an early-stage startup

EDUCATION

2024 – 2028 **B.Tech in Computer Science and Engineering**, Indian Institute of Information Technology, Surat CGPA (till 4th semester): 8.02

ACHIEVEMENTS & ACTIVITIES

- Active participant in technical and design activities at SARAS, LCS, and GDG (IIIT Surat)
- Exploring machine learning through self-initiated projects and coursework
- Contributing Member at IIITians Network as a designer and social media ideator
